## Digital Distance Learning Plan of Action

March 25, 2020

---

Dear Parents and Students,

This guide is designed to assist you and your student with Digital Distant Learning. We are on Spring Break from March 23 - March 30th. **Online Instruction will begin on Tuesday, March 31, 2020.** Our teachers have worked hard this week to create digital classrooms for each period they teach. All students have received a Google invite from each of their teachers via their student school email to attend class through Google Classroom. Students can access their emails and Google Classroom through their district student portal. All students are aware of the process for logging into their district portal.

### **My expectations for all students are as follows:**

- Sign in each day to each scheduled class.(See schedule below) **BE ON TIME!**
  - This is a video class - Dress Appropriately!
  - Participate in online learning and activities.
  - Complete assigned work as it will be graded.
  - Continue to use Mathia and Reading Plus. As assigned by your teacher.

**To the class of 2020:** I promise you that when this crisis is over we will have our Junior-Senior prom. The district has not canceled graduation and will keep us posted about graduation dates and times. I need for my Seniors to complete their online work and make sure your fourth quarter grades are good so that you can graduate!! Credit recovery information for Seniors will be forthcoming and discussed in your Google Classrooms.

I want to thank all of our families for their flexibility and remember we are RAM Tough - We will get through this crisis together. #LOT
